

SIM/831

19 October 1954

Operational/GROOVY

Meeting with 13 October 1954

MEETING ARRANGEMENTS

1. As previously arranged, [] met [] at the safe room above the Itzling Kino at 2015 hours on the above date. The meeting ended at 2115 hours.

PRODUCTION.

2. [] reported three fragmentary items concerning persons of CI interest. One item was that Franz EISL, of the Security Directorate, was operationally interested in a (fnu) FLANDERA. Another item was that the Stadl in Linz is interested in Nikolaus POTIADIS. The third item was that a (fnu) MAGNUS received the order to build a new wall at the OeVP Lehrlingsheim in the Weiserstrasse in Salzburg. [] and his source, [], do not understand why MAGNUS was given the contract when he allegedly had just returned from a trip to the USSR one week ago.

OPERATIONAL MATTERS

3. Johann ANGERER [] said that he had received, over a period of time, considerable derogatory information on ANGERER from []. ANGERER is presently turning out a tremendous number of reports. However, the type of information is not known. He often travels to Germany (believed to be Freilassing).

4. Theodore ALBERT allegedly provided ANGERER with some sort of intelligence contact. ANGERER is able to go to a beer hall at least twice weekly, he is well dressed, and recently paid 11,000 AS for an apartment. Allegedly the 11,000 AS came from a relative who is a dentist somewhere in Styria. ANGERER is a good friend of Franz EISL of the Security Directorate and they often drive to Germany together. One of ANGERER's brothers in Bad Aussee is said to be involved in illegitimate transactions with the Mayor in Bad Aussee. ([] Comment: When queried about the personal relationship between [] and ANGERER, [] said he did not like ANGERER and did not trust him.)
